

Certificate II in Agriculture – (VDSS)

COURSE CODE: AHC20122

Description:

Interested in working on the land and building a career in agriculture? This course provides practical, hands-on skills and knowledge to prepare students for work in farming, livestock, and land management. Students will learn how to care for livestock, operate basic machinery, carry out general farm maintenance tasks, and work with livestock. Students will also learn important health and safety procedures and understand sustainable farming practices and land use.

Graduates will gain a diverse skill set and can enjoy variety and opportunity in their careers. Workers in this industry can benefit from flexible working hours.

You will learn things like:

- Assisting with animal care, feeding, and handling
- Operation of basic farm machinery and equipment safely
- Learn how to do fencing, irrigation, and general maintenance tasks
- Work with livestock such as sheep, cattle, or poultry
- Understanding and following workplace health and safety procedures
- Understanding sustainable farming practices and land use
- To participate in environmentally sustainable work practices
- Develop your skills in workplace communications
- Learn to work effectively in the industry

Does this sound like you:

- Enjoy working outdoors and being physically active
- Are interested in farming, livestock, and rural environments
- Are practical, hands-on learners with a mechanical mindset
- Have good communication skills and enjoy working in a team environment
- Are confident and patient when handling animals
- Have an interest in sustainability, environmental management, and primary industries

INFORMATION PROVIDED AS A GUIDE ONLY.
