

Certificate II in Automotive Vocational Preparation – (VDSS)

COURSE CODE: AUR20720

Description:

Do you enjoy hands-on work and problem-solving? This course is a great starting point for students considering a career in the automotive industry. It introduces learners to basic automotive service and repair skills, while providing insight into the working environment of vehicle workshops. The program builds a strong foundation for further training and apprenticeships. Providing participants with the knowledge and skills to achieve competencies that will enhance their employment prospects in the automotive or automotive-related industries. They will build general knowledge and practical workshop skills in motor mechanics, auto electrical, parts interpreting, light engines and engine reconditioning.

You will learn things like:

- The knowledge and skills to achieve competencies that will enhance their employment prospects in the automotive or automotive-related industries
- General knowledge and practical workshop skills in motor mechanics, auto electrical, parts interpreting, light engines and engine reconditioning
- How to use and maintain tools and equipment in an automotive workplace
- How to carry out basic vehicle servicing operations
- Safely use automotive hand and power tools
- Dismantle and reassemble engine components
- Work on systems such as carburetors, fuel pumps, transmissions, and basic electrical circuits
- Follow safe work practices in a real or simulated automotive environment

Does this sound like you:

- Enjoy hands on, practical work
- Curious about how engines and vehicles operate
- Interested in working with tools and machinery
- Be comfortable with physical tasks and workshop environments
- Enjoy solving problems and thinking mechanically
- Willing to follow instructions and work safely
- Have a keen interest in learning new technologies and techniques as the industry evolves
