

Certificate II in Building and Construction (Carpentry) Pre-apprenticeship VDSS COURSE CODE: 22614VIC

Description:

Interested in building things and working with your hands? This course is a great introduction to the carpentry trade within the building and construction industry. This VDSS program gives hands-on learners the opportunity to gain foundational skills in the building and construction industry while completing their secondary school studies. Students develop safe work practices, tool use, measurements, and introductory carpentry—all in a practical environment that supports career readiness.

You will learn things like:

- Learn how to be safe on a worksite
- Safe and effective use of hand and power tools
- Reading and interpreting building plans
- Basic carpentry skills
- Learn how to measure and calculate for work tasks
- Erect and install wall frames
- Team-based project work on simulated job sites

Does this sound like you:

- Enjoy physical outdoor work and have a practical mindset
- Are comfortable with manual labour and working in all weather conditions
- Have good hand-eye coordination and spatial awareness
- Are confident working at heights and with tools
- Enjoy solving technical problems and working to precise measurements
- Have a sound understanding of mathematics (for measuring, calculating angles, quantities, and quotes)
- Are not affected by dust or other common environmental factors on construction sites

**INFORMATION PROVIDED AS A GUIDE ONLY.
